Print on card stock.  
Score on the lines  
and fold to make a  
cube. Glue the sides  
and top.

Ideas to draw visual clues over the letters on the chart above:

**b** – draw a cricket bat along the length of the b and a ball for the body.

**d** – draw a dog's face in the round body, make a wagging tail at the top

**t** – draw a tea-cup in the base of the t

**f** – draw a sunflower flopping over at the top right

**p** – draw the pig's long pointy foot first, then a pig's fat round body. Draw a puddle around the pointy foot and show that the foot goes below the writing line

**q** – draw a crown on the queen's head, and draw her train flowing up behind her and the servant u always walks next to her to hold up her train and keep an umbrella (u for umbrella) over her head so she won't get sunburnt. q+u always go together!

**Note:** All the letters are underlined. This helps orientate each letter and eliminates any confusion or reversal
